Gary,

Thanks again for speaking with us. We have Adrian Shelley from Air Alliance Houston coming to speak on the risks posed by the substances on site at our news conference on Monday. Could you provide him with a list of substances and other pertinent details that have been found on the CES site so far?

Have a good weekend!

Adrian is available. Can you send him what we know so far please.

Thanks.

Tiffany Hogue

Hey Adrian and Brian,
I'm wondering if either of you would be willing to participate in a press conference/tour on Monday morning around CES site to give updates and help put additional pressure on City to act.

We're also going to Council on Tuesday and would love your backup/support/testimony explaining some of the chemicals found enumerated in the below attachment and some of the likely resulting issues/health impacts of ongoing contact with these chemicals.

I apologize for last minute request. We wanted to ensure we had a good showing from our leaders before asking allies to speak with us.

Your voice would be invaluable at both press conference and public comment.

Let me know.

Thanks!

Chrishelle/Charlie:

I can be available at 2:00 pm should you need to talk. I am forwarding you an update that I just completed. This may help some. I will be sending this same update out to TCEQ, EPA Managers, City of Houston staff.

Thanks

Hi Gary,

A couple of weeks ago City Councilmember Kubosh visited the CES site to see first hand what area residents have dealt with over the years. TOP is committed to staying on top of this issue and next week is holding a press conference and plan on going to City Council to discuss their concerns. You have been very instrumental in helping us and TOP learn more about CES. We'd like to fill you in about next week's events and get an update from you.

Are you available for a call today or tomorrow after 2:00 pm to speak with Charlie and me? If so, let me know what time works so we can adjust our schedules.

Please use this number to join the call:

(b) (6)

no code is needed to join the call.

We both look forward to speaking with you soon.

Thanks,
